Deployiq PMO

Decades of delivery. Available now.

PMO DIRECTOR EDITION

Trevor: +27 81 425 0683 | Bruce: +27 83 445 0327 | trevor@agile-revive.com | agile-revive.com

When a PM leaves unexpectedly, a project demands specialist capacity, or your team is stretched beyond its limits — the gap is immediate and the risk is real. Deployiq PMO provides access to a curated network of senior, experienced project managers available for short-term placement. Each has been personally vouched for and independently assessed. All are based in the Western Cape. All can be productive from the first week.

10+ PMs available	1–6 month contracts	Assessed & vouched	One contract
Western Cape based	Extendable if required	Every placement verified	With Agile Revive — not the PM

WHY EXPERIENCED PMS OUTPERFORM IN SHORT-TERM ROLES

1 Pattern recognition over process

A PM with 20+ years of delivery has encountered most failure modes before. They diagnose and respond instinctively — no methodology warm-up required.

2 Stakeholder management is instinct

The difference between a project that succeeds and one that stalls is almost always people. Experienced PMs navigate politics, manage up, and keep diverse stakeholders aligned without being taught how.

3 Zero ego — complete confidence

Senior PMs who choose short-term work are motivated by the work itself. They have nothing to prove and no ladder to climb. They focus entirely on getting the job done.

4 Mentoring is a natural by-product

Your permanent team will be stronger after a Deployiq engagement. Knowledge transfer happens on the job — no formal programme required.

OUR NETWORK — WHAT TO EXPECT

Sector depth	Financial services and IT — the sectors where delivery risk is highest and PM quality matters most.
Seniority floor	15+ years minimum. Most have managed portfolios, not just individual projects.
Vetting standard	Personally known to Agile Revive leadership. Independently assessed using our Veraciq PM evaluation tool.
Engagement model	Agile Revive contracts with your organisation. We manage performance, continuity and — if needed — replacement.
Availability	Typically 2–4 weeks lead time from engagement to placement. Urgent situations can be accommodated.

THE AGILE REVIVE DIFFERENCE

Process gets a project started. People get it finished. Every Deployiq PM brings both — but it is their instinct for people, politics and human dynamics that consistently separates successful delivery from a tick-box exercise.
