When a project turns RED, the instinct is to remove the PM and start over. That approach costs time, destroys institutional knowledge, and rarely fixes the underlying problem. Rectifiq takes a different view — we embed alongside your existing team, stabilise the project, and rebuild delivery confidence. Your investment in the project and in your people is protected.

PM stays in role
We mentor — not replace

Evidence-based diagnosis
Tool-driven gap analysis

Structured 3-phase method
Proven recovery framework

Monitored recovery
4–8 week oversight tail

HOW IT WORKS — THREE PHASES

01 Rapid Diagnostic

5 – 10 working days

- Document intelligence review via Veraciq
- Gap analysis + success likelihood score
- Risk and issue area mapping
- Stakeholder introductions and PM assessment
- Root cause analysis — structured 5 Whys
- RAID log and health check review
- Diagnostic Report to executive sponsor

02 Stabilisation & Recovery Planning

2 – 4 weeks

- Reset project objectives with the PM
- Restructure plan with realistic timelines
- Confirm resources — identify and close gaps
- Establish reporting cadence and escalations
- Stakeholder alignment on recovery plan
- PM mentoring begins — shadowing & 1-on-1s
- Recovery dashboard established

03 Monitored Recovery

4 – 8 weeks

- Weekly tracking against the recovery plan
- Ongoing real-time PM coaching in delivery
- RAID log and risk monitoring with escalation
- Change documentation and impact assessment
- Regular reporting to executive sponsor
- Post-deployment review
- Formal handback with lessons learned
